Business Communications Solutions That Work

The diversitycom Advantage

- *Customer Focused*
- *Innovative*
- *Creative*
- *Reliable*
- *Experienced*
- *Knowledgeable*
- *Competitive*

Knowledge is Power

With over 20 years of experience in the telecommunications industry, we have diverse product knowledge including such industry leaders as Avaya, Nortel, Mitel, SBC Centrex and many more. We are also well versed in the maintenance of vintage systems such as Comkey, Horizon, Spirit, 1A2, etc.

Add to that our experience in marketing and design as well as our alliances with the data, networking, and printing industries and you have all the answers/solutions you need in one convenient place.

Call us today so we can start helping you make the most of your communications

Solution Oriented

diversitycom will work closely with your company to find the right solutions for all your communications needs. Whether it's voice, data, or voice over IP; or graphics, web design and printing we can find a custom fit for you. We understand the needs of both large companies and small businesses. Rather than trying to fit your company into a system, we listen to you and help find the solution to fit your company.

When you work with *diversitycom*, you can expect impeccable customer service, competitive rates, experience, loyalty, prompt service, support, and creative solutions.
